

## Electrical Foundation Harmonized Program

Looking to start trades training for an apprenticeship or career in the construction industry?

Join this SkilledTradesBC and Private Training Institutions Branch (PTIB) - approved Electrical Foundations training program.

Learn how to:

- Solve practical problems in mathematics for electricians
- Demonstrate safety and maintenance of hand and power tools
- Use essential skills in troubleshooting and computers
- Read and interpret drawings and manuals
- Apply the Canadian Electrical Code (CEC) regulations and standards
- Install low-voltage distribution systems and control devices
- Install and maintain raceways, cables, enclosures, branch circuitry and communication systems

Registration Opens May 6, 2024

- The program starts on Oct 7, 2024. Limited seats are available.
- 725 hours of instructor-led training - 8:00 AM to 4:15 PM
- 1 week of job search support and career coaching
- Connections to job opportunities post-completion

Who's Eligible?

- Grade 12 graduates, or equivalent (General Education Development, Adult Basic Education), or mature student status (age 19 & above)
- Self-identify as being First Nations, urban Indigenous, Métis or Inuit
- Must reside in BC and must have a social insurance number (SIN)
- Unemployed or precariously employed (i.e., part-time, seasonal, casual)
