Summary

British Columbia Métis Federation is hosting a course for silent speakers of our Michif-French language. The course is based on a successful program developed in Norway and Sweden for and by Indigenous Sami People. The course was translated into English, brought to Canada by the First Peoples Cultural Council, and adapted for First Peoples Silent Speakers. We have adapted and adopted this for Métis people. The course aims to support silent speakers in overcoming barriers to using their Michif-French language in their homes and communities.

Who is a silent speaker?

A silent speaker is someone who has a good understanding of language but does not speak it. There are many different kinds of silent speakers. Here are some examples:

- » Residential School Survivors who spoke their language before attending residential school.
- » People who grew up hearing the language and understand it but do not speak it.
- » People who grew up with a fluent speaker in the home and understand the language but do not speak it.
- » People who have studied extensively and have developed a high level of ability in reading and writing the language but do not speak it.
- » Speakers who moved away from their Métis community for some time and do not feel comfortable speaking now.
- » Speakers who speak a different dialect of the same language group of Michif-French and do not feel comfortable speaking within a community where another type of Michif-French is common.
- » Speakers who simply haven't spoken for years because they haven't really had anyone to speak it with to maintain it.

Who is NOT a silent speaker?

- » A new language learner.
- » Language learners with beginner or intermediate language proficiency.
- » Someone who lost their language abilities due to a stroke or other health issues.
- » A speaker who can speak comfortably in most situations.

How long is the course?

- » The program runs for 10 weeks. Sessions happen three times per week (midweek) and are 3 hours long.
- » If you sign up for the course, we strongly encourage you to commit to all class sessions.
- » During the program you will be provided language learning and mentoring with a language speaker.

Caring for Our Community:

- » The most important aspect of learning and sharing knowledge is community. Returning home language speakers and learners will be invited to share knowledge and care for one another within their ways of knowing and being - an empowering, strength-based approach to coming alongside the feelings that naturally arise as the process of language revitalization is undertaken. Sharing food, stories, music, and laughter will be central to the Michif Returning Home session gatherings and curriculum.

What does it cost?

- » The course is free.
- » Participants will receive an honorarium of \$20/hour for the time they spend in the Zoom sessions each week.

Pre-Course Survey

Each silent speaker participant is required to fill out a Pre-Course Survey.
